

## Unlock workplace data to improve employee wellbeing

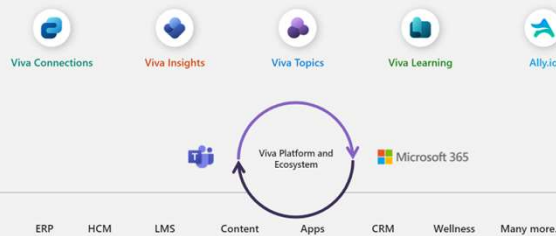

Ways of working have changed. It's critical for your organization to support employees in new ways.

**41%**

of the global workforce is considering leaving their employer due to burnout and lack of workplace flexibility.<sup>1</sup>

With Microsoft Viva, organizations have a powerful platform designed to help prioritize employee experiences by providing a unified digital workplace that empowers employees to do their best work.

### Microsoft Viva: employee experience platform for the hybrid era

### Here is how the Microsoft Viva integrated employee experience platform can help:

#### Connection

Keep everyone informed, included, and inspired. Employees can discover relevant and personalized information, news and resources through the apps they use every day.

**83%** of employees would be motivated to come into the office by the promise of socializing with coworkers.<sup>2</sup>

#### Purpose

Align work to team and organization goals. Create communities where anyone can exchange ideas to keep employees informed, invested and inspired.

**81%** of employees say that it's important that their managers help them prioritize their workload.<sup>2</sup>

#### Growth

Help employees learn, grow, and succeed. Facilitate a two-way dialogue between employees and leaders.

**Over 76%** of employees say they'd stay at their company longer if they received learning and development support.<sup>2</sup>

#### Insight

Companies with clearer communication are reporting a nearly 5X increase in productivity.<sup>3</sup>

Companies with clearer communication are reporting a nearly **5X increase** in productivity.<sup>3</sup>

We can help you design, implement, and manage a world-class digital workplace experience that prioritizes employee wellbeing and helps them succeed in their roles, using Microsoft Viva. [Learn more.](#)
