

SIEM and XDR: Your ally against ransomware I

Stop breaches across your entire organization

Secure all clouds, all platforms

Protect Azure, AWS, and Google Cloud as well as Windows, Mac, Linux, iOS, Android, and IoT platforms.

Get leading integrated security tools

Prevent, detect, and respond to attacks with built-in unified experiences and end-to-end XDR capabilities.

Empower rapid response

Help your security operations team resolve threats faster with AI, automation, and expertise.

Stop ransomware

Create a response plan to prevent and respond to pervasive threats like human-operated and commodity ransomware.

Defend against modern attacks with cloud-native SIEM and XDR

Microsoft empowers your organization's defenders by putting the right tools and intelligence in the hands of the right people. Combine SIEM and XDR to increase efficiency and effectiveness while securing your digital estate. Get insights across your entire organization with our cloud-native SIEM, Microsoft Sentinel. Use integrated, automated XDR to protect your end users with Microsoft 365 Defender, and secure your infrastructure with Microsoft Defender for Cloud.
