# Accelerate data warehouse migration
with Azure Synapse

Automate mandatory and critical data warehouse migration steps with Azure Synapse

Use our point-and-click solution that scans your source system, produces an inventory report, and translates existing code in minutes—not weeks or months. No manual rewriting needed—get more than 100,000 lines of SQL code translated in minutes.

Limitless scale

Powerful insights

Unified experience

Converged analytics

Unmatched security

On-premises & cloud data warehouse

Azure Synapse Analytics

Automated data warehouse migration
Reduce migration time from months to minutes
Significantly reduce migration costs

Rethink the way you operate and deliver services by transforming information into actionable insights
